TERM 3, 2024 YEAR 6 CURRICULUM LETTER

ENGLISH Welcome to Journalist Training School! Students are learning to create an informative news report, using effective language devices to represent ideas and events to Influence an audience.

MATHEMATICS

- Identify and describe properties of prime, composite, square and triangular numbers.
- Make connections between equivalent fractions, decimals and percentages.
- Calculate percentage discounts of 10%, 25% and 50% on sale items.
- Add and subtract related fractions.
- Calculate a simple fraction of a quantity.
- Locate fractions on a number line.
- Convert between metric units. Perform calculations on decimals.

Students learn and perform a prechoreographed hip-hop style dance. They describe and explain dance including elements, skills and choreographic devices. Finally, they develop an original hip-hop style dance including compulsory and optional moves, drawing on stimulus from urban culture and landscapes.

JAPANESE

Students will create a bilingual 'collector

card' for an Olympic athlete, including

details such as the sport, country, likes

athlete; written in Japanese script.

and dislikes, as well as a description of the

Students investigate volcanoes and learn about their ability to be creators and destroyers. We then look at earthquakes, where they occur and why. We then look at the different ways we measure them.

TECHNOLOGY

Students learn to code using a software program called Scratch. They then use their coding skills to develop and produce a computer game.

HASS My Government & Me! Students will understand how the Australian system of government was created, that Australia has three levels of Government (each with its own responsibilities), and how the government works through a balance of rights and responsibilities for its citizens.

Students will collaboratively create and perform a composition to depict a chosen landscape or weather event.

HEALTH

In Health this term, students explore drink products that contribute to health and wellbeing. They focus on investigating a variety of drink options including soft drinks, energy drinks and fruit juice, and the effects they have on the body. Students examine available alternatives to various drink options.
