

## Information Report

Sound Year 2

Very High Year 1

### Bees

Bees are small flying insects.

#### Appearance

They are yellow and black. Bees have three body parts - the head, the thorax and the abdomen. They have six legs and wings so they can fly. Bees have a sharp stinger.

#### Habitat

Bees live in beehives. Bees live near flowers to get nectar.

#### Diet

Bees collect nectar and pollen and they make honey.

#### Interesting Facts

Bees dance to tell the other bees where the flowers are.
