

Year 1 Very High Exemplar

Kookaburras are **certainly** the best **native** Australian animal **because** they have a **sharp** beak **for** catching small **creatures** to eat.

Kookaburras have **excellent** **vision** **so** they can **locate** their **potential** prey. **Brown** feathers help them **to** **camouflage** in the **natural** environment.

It is clear that kookaburras are **Australia's** most **awesome** animal!
