A Exemplar

Dolphins

I have given my information text a subject title.

Classification

I have used sub headings.

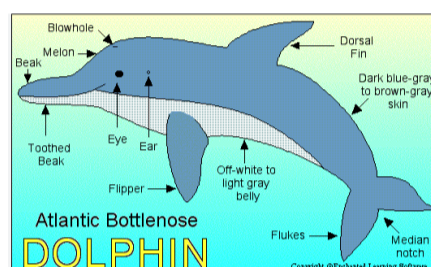

Dolphins are mammals. They are warm-blooded **and** are a **vertebrate**.

Appearance

I have used a noun group.

Dolphins have a **grey, torpedo-shaped body with flippers and** a tail fin. These **mammals** also have long snouts **and** eyes placed on the sides of its head. These **amazing creatures** also come in a range of colours **with silky, smooth skin**.

I have used a labelled diagram.

Habitat

Dolphins can live in many parts of the world. They can be found in **Australia, USA and India**. These **incredible mammals** move to different places, **so** they can be in water that is warmer **and** has lots of **prey**.

Diet

Dolphins eat fish, squid, and **crustaceans**. They do not chew their food **because** they break it into smaller pieces before swallowing.

Other Facts

These **mammals** are very social creatures **that** love to hang out in pods.

Dolphins can be trained **easily and** can jump up to 4.9 meters above the water.

I can use appropriate punctuation.

Capital letters **A**

Full stops **.**

Commas **,**

I can spell most high frequency words correctly.

I can spell words using unfamiliar letter sounds.
